ARLON, Av. 29. vis Brussels, 29.—The Prusians assuming a flatik movement on McMahon the same as they did on Bassine. This is the situation of both armies: McMahon, as I have told you airrady, occupies a line from Rethel to Stenay, learning on Mester's Sedon and Montmedy, with the Belgian boundary behind. The Prussians who were marching on to Paris, deployed from Stenay to Troies, have changed their direction. Istead of going west, they are going north, with their troops around Troies marching in the direction of Romelly, those around Chalons in that of Shippers, and those which were between Stenay and Varennes in the direction of Rethel by Grandpre and Varsteres, while a strong force is at Dun, observing the left of McMahon at Stenay. Measwhile, strong Prussian columns are advancing from Luneville and Joniville to St. Dimer, where the headquarters of the King were reported yesterday. The manifest intention of the Prussians is to destroy McMahon as they destroyed Bazaine, and then turn their attention to Faris. A great battle will sertainly be fought before many days between Rethel and Montmedy. Do not believe in a dispatch from Rethel this morning saying that McMahon and Bazaine are in communication.
